# **Release Notes for CounterPath Bria iPhone Edition CounterPath Bria iPad Edition Version 2.0.5**

**April 25, 2012**

## Changed Features for Bria iPhone and iPad Edition 2.0.5

### Improved video quality

With the updated H.264 codec implementation, video quality has been improved. We recommend that you leave the video quality setting "Automatic" to let Bria choose the best quality to use in a given situation.

### Transport

Bria now comes back to foreground more quickly after being asleep.

### Accounts

- After the video call premium feature is purchased, all the accounts will automatically have video enabled. Video calls can be made right away.
- When an account is enabled, the account becomes the default dial-out account.

## Resolved Issues

### Issues Resolved in Bria 2.0.5

- Previously, Bria stopped recording after around 15 minutes. This problem has been fixed.
- When Bria has a video call with the speaker turned off and the user puts the call on hold, the speaker would come back on after the hold is released. This problem has been fixed.

## Third-party Software Notices

### Open SSL

All rights reserved.

This package is an SSL implementation written by Eric Young (eay@cryptsoft.com).

The implementation was written so as to conform with Netscapes SSL.

This library is free for commercial and non-commercial use as long as the following conditions are aheared to. The following conditions apply to all code found in this distribution, be it the RC4, RSA, lhash, DES, etc., code; not just the SSL code. The SSL documentation included with this distribution is covered by the same copyright terms except that the holder is Tim Hudson (tjh@cryptsoft.com).

Copyright remains Eric Young's, and as such any Copyright notices in the code are not to be removed. If this package is used in a product, Eric Young should be given attribution as the author of the parts of the library used. This can be in the form of a textual message at program startup or in documentation (online or textual) provided with the package.

Redistribution and use in source and binary forms, with or without modification, are permitted provided that the following conditions are met:

1. Redistributions of source code must retain the copyright notice, this list of conditions and the following disclaimer.
2. Redistributions in binary form must reproduce the above copyright notice, this list of conditions and the following disclaimer in the documentation and/or other materials provided with the distribution.
3. All advertising materials mentioning features or use of this software must display the following acknowledgement:

"This product includes cryptographic software written by Eric Young (eay@cryptsoft.com)"

The word 'cryptographic' can be left out if the rouines from the library being used are not cryptographic related :-).

4. If you include any Windows specific code (or a derivative thereof) from the apps directory (application code) you must include an acknowledgement:

"This product includes software written by Tim Hudson (tjh@cryptsoft.com)"
