# **Release Notes for CounterPath Bria iPhone Edition CounterPath Bria iPad Edition Version 3.3.4**

**June 23, 2015**

## Softphone Clients

CounterPath supports several versions of softphone clients.

Client	Description
Retail	<ul style="list-style-type: none"> <li>• Standard “yellow” client sold on the CounterPath eStore.</li> <li>• Intended primarily for consumers.</li> </ul>
Branded	<ul style="list-style-type: none"> <li>• Customized softphone client intended for use by larger businesses.</li> <li>• Receive their own customized binary.</li> <li>• Includes Category 1, 2 and 3.</li> </ul>
Bria Stretto™	<ul style="list-style-type: none"> <li>• Fully featured “red” client offering that includes the CounterPath-hosted provisioning service.</li> <li>• Intended for business users.</li> </ul>
Bria play	<ul style="list-style-type: none"> <li>• Special service offering from CounterPath.</li> <li>• Enables users to stay connected for free* and provides access to a community during select conferences and events.               <ul style="list-style-type: none"> <li>* Standard data roaming costs will apply if using a non-Wi-Fi connection.</li> </ul> </li> <li>• Users will be able to use a Wi-Fi or cellular data connection to make and receive calls, send instant messages and text messages, and initiate presence management to allow them to easily interact with other users while using the Bria play application.</li> </ul>

The softphone client type is identified for each of the features listed in the following sections.

## **Changes in Bria 3.3.4 for Bria Stretto and Bria play**

**Bria Stretto and Bria play variants are now at the same version as the Bria retail version.**

## Change in Bria 3.3.4 for Retail and Branded

**Fixed startup crash for users with a large number of contacts**

## Known Issues

### **Losing Registration on Slower Devices with iOS 8**

iOS 8 memory management on slower devices (such as the iPhone 4S and iPad) can result in applications – such as Bria running in the background – to be terminated by the operating system. To reduce or eliminate the chance of Bria being terminated by the operating system, users of slower hardware are advised to carefully manage how many apps they have running concurrently.

## Changes in Bria 3.3.3 for Retail, Bria Stretto, and Branded

### iPhone

#### Audio handling enhancements for improved interoperability with hearing aids

#### Contacts integration – some items can now only be edited in the native iOS Contacts application

Bria users can no longer modify a number of items in the Contact tab that they previously could. Any edits or modifications must be done in the native Contacts app.

These items include:

- Photo editing
- Instant Message
- Vibrate options for Ringtone/Text Tone
- Address
- Birthday
- Date
- Related name
- Social profile
- Notes

#### Video quality improvements

### iPad

#### Contacts dialing fix

#### Active microphone indicator fix

#### Video quality improvements

## Resolved Issues

#### Issues Resolved in Bria 3.3.3

In general, there have been improvements in the additional stability and performance of Bria.

## Changes in Bria 3.3.0 for Retail, Bria Stretto, and Branded

### 64-bit support

This version has 64-bit support for iOS as required by all new apps on the Apple App Store starting on February 1, 2015.

### iOS 8.2 bug fixes

This version contains fixes for issues discovered when testing with the beta releases of iOS 8.2. The areas that were impacted included the adding/editing of contacts and call log detail views.

### Removed Facebook sharing and status updates due to restrictions imposed by Facebook

Removed Facebook XMPP messaging and integration with Facebook to display latest Facebook status for contacts.

### Removed pre-defined XMPP Provider Messaging accounts for Facebook and Google.

### OpenSSL 0.9.8ze

### OPUS audio codec interoperability improvement

## Resolved Issues

### Issues Resolved in Bria 3.3.0

In general, there have been improvements in the additional stability and performance of Bria.

Original SSLeay License

-----

/ Copyright (C) 1995-1998 Eric Young ([ey@cryptsoft.com](mailto:ey@cryptsoft.com))

All rights reserved.

This package is an SSL implementation written by Eric Young ([ey@cryptsoft.com](mailto:ey@cryptsoft.com)).

The implementation was written so as to conform with Netscapes SSL.

This library is free for commercial and non-commercial use as long as the following conditions are adhered to. The following conditions apply to all code found in this distribution, be it the RC4, RSA, lhash, DES, etc., code; not just the SSL code. The SSL documentation included with this distribution is covered by the same copyright terms except that the holder is Tim Hudson ([tjh@cryptsoft.com](mailto:tjh@cryptsoft.com)).

Copyright remains Eric Young's, and as such any Copyright notices in the code are not to be removed. If this package is used in a product, Eric Young should be given attribution as the author of the parts of the library used. This can be in the form of a textual message at program startup or in documentation (online or textual) provided with the package.

Redistribution and use in source and binary forms, with or without modification, are permitted provided that the following conditions are met:

1. Redistributions of source code must retain the copyright notice, this list of conditions and the following disclaimer.
2. Redistributions in binary form must reproduce the above copyright notice, this list of conditions and the following disclaimer in the documentation and/or other materials provided with the distribution.
3. All advertising materials mentioning features or use of this software must display the following acknowledgement:

"This product includes cryptographic software written by Eric Young (eay@cryptsoft.com)"

The word 'cryptographic' can be left out if the routines from the library being used are not cryptographic related :-).

4. If you include any Windows specific code (or a derivative thereof) from the apps directory (application code) you must include an acknowledgement:

"This product includes software written by Tim Hudson (tjh@cryptsoft.com)"
