eyeBeam – Data Sheet

CounterPath eyeBeam 1.5

The award-winning softphone that started it all

Simplify your VoIP communications with eyeBeam 1.5 for Windows, the award-winning VoIP softphone with a dialpad-centric user interface that's easy to use.

Stay connected and manage your calls and availability from your desktop with a comprehensive suite of carrier-grade Voice, Video, Instant Messaging (IM) and Presence features.

User Interface (UI)

eyeBeam's intuitive user interface is centered around the dialpad, making it easy for both novice and power users to make and receive calls, initiate video conferencing and communicate using Instant Messaging.

Customization

Flexible skinning capabilities are designed to give Service Providers and Equipment Manufacturers the ability to implement a co-branded or private label solution to market. An eyeBeam Software Development Kit (SDK) is also available for fully customized solutions.

Rapid Deployment

Rapid market deployment is guaranteed with eyeBeam's open standards based architecture that integrates with third-party platforms to make customer implementations smooth and seamless.

Simplified Integration

Simplified integration with SIP and other VoIP applications allows for a customized deployment of multimedia capabilities or amalgamation with an existing solution suite.

Innovation in Technology

CounterPath technology is deployed by some of the world's largest companies including **AT&T**, **British Telecom**, **Cisco Systems**, **Deutsche Telekom** and **Portugal Telecom**. Join them today.
