

## DATA SHEET | Bria Screen Share Add-In

### Key Features

- Click to share your desktop screen with anyone on any device
- Participant friendly – join a session without additional downloads or plug-ins
- Includes a dedicated virtual meeting room to host sessions – no need to book ahead of time
- Secure with HTTPS encryption to protect all sessions

### User Benefits

- Enhance user experience and increase audience engagement using screen sharing
- Quickly and easily deliver a presentation or demo with the click of a button
- Reduce communication delays and invite participants to join from any device without additional downloads or plug-ins
- Assigns each host with a shareable and unique Screen Share link

### Enterprise Benefits

- Empower employees with a powerful tool to deliver interactive presentations and promote collaboration
- No additional apps or plugins for employees to struggle with – all of their communication tools are within their Bria application
- Increase productivity and aid IT technicians with troubleshooting by sharing the desktop screen to identify issues

NOTE: Bria Screen Share Add-In must be used in conjunction with Bria 4.2+ desktop client for Windows or Mac.

### Overview

Enhance your communications experience and collaborate instantly with coworkers or customers by integrating CounterPath's Screen Share Add-In to your Bria desktop softphone. Share your desktop screen with a click of a button to deliver interactive presentations or demos with up to 100 participants on any device. Joining a screen share session is simple for participants with no additional downloads, plug-ins, Flash or Java required on their system. When used in the Bria desktop client, the Screen Share Add-In provides a user-friendly, cost-effective and powerful collaboration tool for small, medium and enterprise businesses.

### Reasons to Choose CounterPath's Screen Share Service

- 1. Extend the features of your Bria desktop softphone client.** Do more than just voice calling by visually engaging your coworkers or customers with a presentation or demo on your desktop screen to any device on any network.
- 2. Seamless collaboration.** Launch a screen share session directly from your Bria desktop softphone and send your screen share link in an IM to Bria contacts, email invitation to external participants or even mid-meeting without dropping the call. We've made it easy for viewers, too. Unlike other screen share tools, participants are not required to download additional software, plug-ins, Flash or Java.
- 3. Advanced security.** All screen share sessions are equipped with powerful encryption standards to protect the privacy and security of information shared, meeting even the most stringent requirements within a finance or health care network.
- 4. Integration is a breeze.** Get set up quickly and easily with this cloud-based service without the need for onsite installs or proxies.

## Let's Start Talking
